

THE TROJAN HORSE MOSQUE AT GROUND ZERO

Where Faisal Shahzad failed at Times Square with overt Jihad, Imam Feisal Abdul Rauf will succeed with Stealth Jihad. --*Wafa Sultan, a former Muslim.*

- **Imam Rauf**, who is building the Mosque, blamed America for 9/11. He grew up in a family with close ties to terrorist organization Muslim Brotherhood.
- **Rauf's book** (on the right), "A Call to Prayer from WTC Rubble" was sub titled, 'Islamic Da'wah from Heart of America Post 9/11'. Da'wah is proselytization that precedes Jihad, implying this is for Islamizing United States.
- Rauf supports Shariah Law that denies equal rights to women, freedom of conscience, equality before law. He advocates separate courts & laws for Muslims in US and justifies Shariah based Jizya tax against Christians and Jews during history. Shariah is in direct conflict with US Constitution.
- The plan is to build 100 million dollar complex, funded like many radical Mosques by Saudi Arabia, a country which provided 15 of the 19 Jihadists that destroyed WTC.
- Rauf has close and long standing ties with the Muslim Brotherhood and CAIR which both support terrorist group Hamas. Rauf denies Muslim Brotherhood and Hamas are terrorist groups.
- Rauf is prominent member of of the Perdana phony "Peace" Organization which sponsored recent flotilla packed with armed terrorists in cold blooded provocation against Israel.
- Cordoba is the city in Spain where Islamists first conquered West. Ground zero Mosque is a symbol of conquest.

Voices of Moderate Muslims

Rauf avoids discourse on reform and political Islam... this project (should be) built further away from Ground Zero. -- **Dr. Zuhdi Jasser**

This is a tower of terrorism...Islamists (including political Islam) are Islam's locomotive that takes Islamic train on its demolition course. -- **Journalist Salah Uddin Shoab Choudhury**

What is a Mosque?

The Mosques are our barracks, the domes our helmets, the minarets our bayonets and the faithful our soldiers...

- Turkish Prime Minister Tayyip Erdoğan

A Mosque is not just center for worship but also used throughout history as a fortress for war against infidels (non believers) where arms are cached & fiery sermons are delivered to men sitting in rows like in an army. Almost without exception all Islamist atrocities are performed after friday prayers with a fiery sermon. It is used as a symbol of conquest and sign of supremacy built over the destroyed worship places of infidels. Mosque at Ground Zero by Imam Rauf is such a symbol and choice of name 'Cordoba' from history implies that.

While not all Mosques in US are radical, 3 out of 4 of them which are funded by Saudi Arabia (e.g., Islamic Society of Boston) teach extreme ideology and/or fund terrorist organizations. 30,000 Muslim children in US attend Saudi funded Wahabbi schools where intolerance, outright rejection of American and democratic values are taught.
